

POWERHOUSE DEMO EVENT

CAT Ring Power Engineer Showcase

Active Power is partnering with CAT Ring Power to bring live POWERHOUSE power outage demonstrations at its engineer showcase in St Augustine, FL.

POWERHOUSE DEMO DAYS provide customers, engineers and sales partners the opportunity to witness the all-new POWERHOUSE in action alongside a pair of CAT stand-by generators.

Contained within the POWERHOUSE is our flagship CLEANSOURCE® PLUS MMS 1.2MW Uninterruptible Power Supply (UPS) integrated with our all-new Automatic Transfer and Maintenance Bypass Cabinets.

With its simple and standardized design, rapid deployment, low cost and minimal onsite management requirements, the POWERHOUSE offers huge savings and genuine peace of mind and this event offers a great opportunity to get up close and personal with the equipment and immerse yourself in a live power outage demonstration.

Food and drink will be provided along with some trip-worthy Active Power merchandise.
